THE PUBLIC SERVICE COMMISSION OF
SOUTH CAROLINA
DOCKET NO. 96-391-E - ORDER NO. 97-13
JANUARY 6, 1997

IN RE: Request of Duke Power Company for)	ORDER
Approval to Revise Schedule PL (SC))	APPROVING
Street and Public Lighting Service.)	REVISED
)	SCHEDULE

This matter comes before the Public Service Commission of South Carolina (the Commission) on the December 16, 1996 request of Duke Power Company (Duke) for approval of a revision to its Schedule PL (SC) which has been revised to correct an omission concerning the adder for standard mast-arm metal poles with a luminaire. Duke notes that the Explanatory Note (c) presently contained in the Schedule, describes the charges for mast-arm metal poles with and without a luminaire. The statement correctly describes that 1.7% times the installed cost difference applies to the pole without a luminaire, but fails to include the phrase regarding the 1.7% adder in the sentence regarding these poles with a luminaire. The revenues approved in Duke's last rate case did correctly include the 1.7% adder; therefore, customers have been billed in accordance with the revenues approved in that case. According to Duke, this proposed revision is to correct the obvious text error to show the consistent application of the adder to the standard mast-arm metal pole whether it has a luminaire on

it or not.

The Commission has examined this matter, and agrees that the revision proposed to Schedule PL (SC) should be approved as filed. Duke shall file ten (10) copies of the revised Schedule as approved within ten (10) days of its receipt of this Order.

This Order shall remain in full force and effect until further Order of the Commission.
